

STEVE
CHARLES A LIFETIME OF STONE

The Alchemy Collection

The Alchemy Collection is a stunning metal tile system, which has revolutionised luxury finishes for flooring and walling. The tiles have been carefully designed on marine ply substrates by Steve Charles' master craftsmen, for ease of installation and to combine a variety of patterns. Available in two different standard sizes: briquettes of 300 x 100 x 20 mm or paviers of 300 x 300 x 20 mm. Materials include Brass, German Silver and Copper. Each tile is finished with textured or rippled design effects. Each individually hand patinated finished tile emphasises the perfect balance of functionality, as well as exquisite quality. Bespoke sizes and finishes can be made to order.

EXQUISITE PAVEMENTS OF MARBLE, MOSAIC & RARE LIMESTONES

Champagne Floor for Champagne Bar in London's Jumeirah Carlton Tower Hotel

"London's glittering new jewel on the chic party scene" – this is how the newly opened Gilt Champagne Lounge at the five-star Jumeirah Carlton Tower Hotel has been described.

Designed by world renowned hospitality interior design firm HBA (Hirsch Bedner Associates) the design is inspired by Champagne and all surfaces glow with a golden hue.

Looking like part of an ancient temple, the astonishing Brass Briquette floor tiles from **Steve Charles' Alchemy Collection** set the foundation for this glamour venue. The Briquettes have a surface of hand-painted brass and are bonded to a marine ply base, making the tiles easy to install on walls or floors.

Says Inge Moore, senior project designer for Hirsch Bedner in the UK: *"I had been aware of this fabulous flooring for some time but not until now had the right project to use them. They were, therefore, my first choice for this luxurious project where the theme was strictly champagne/gold. We are absolutely delighted with the result and think the floor is perfect for this space - just the sort of feel we were after."*
